

BO26 Videoscope

Quick endoscopic photo or video documentation

The BO26 enables the visual inspection even in poorly accessible locations which for the purpose of documentation can not only be saved in form of photos but also as video sequences and can be watched via an external TV screen or transferred to a PC, if required.

The 180° image rotation function, the supplied side-view mirror attachment and the powerful quad LED illumination with variable brightness ensure significant photos and videos in every inspection environment.

Despite its versatility the BO26 is characterized by uncomplicated handling:

A multilingual on-screen menu and many clever parameters such as exposure or focusing of the target area, which are predefined or integrated directly in the device's CMOS sensor, promote a simple, intuitive operation.

Technical data	BO26 Videoscope
Article number	3.510.009.126
Probe / camera head	ø 8 mm / ø 17 mm, length 1,000 mm
Focussing range	50 - 150 mm
Type of illumination	Quad LED
Display (resolution)	3.5 inch LCD (320 x 240 pixels)
Image repetition frequency	30 fps (figures per second)
Zoom	3x
Functions	Video and photo recording, photo memory with date and time, brightness control, multilingual on-screen menu, 5°, 15°, 30°, 90° image rotation function, automatic switch-off, zoom function
Resolution photo / video	320 x 240 pixels / 320 x 240 pixels
File format photo / video	JPEG / MPEG4, AVI, 3GP
Operating / storage temperature	-10 °C to +50 °C / -10 °C to +50 °C
Interfaces	USB (type mini, 5-pin), Video out (composite video)
Memory	Internal: 60 MB flash memory; external: Slot for SD memory card (max. 32 GB)
Power supply	3.7 V lithium-ion battery; rechargeable
Weight	580 g
Scope of delivery	Measuring device incl. battery, side-view mirror, hook and magnet attachment, USB cable, charger, carrying case, getting started guide

TROTEC
AT WORK.

A FEW PRACTICAL BENEFITS:

Light, easy-to-handle compact device with semi-rigid gooseneck probe

Memory function to take individual photographs or record complete video sequences

Robust videoscope probe with fixed-focus lens and water-proof camera head (IP67 type of protection)

3.5-inch LCD colour screen

High-intensity quad LED illumination with dimmer

Intuitive user navigation through multilingual on-screen menu

Multiple image rotation function

Automatic switch-off

Inclusive of side-view mirror, hook and magnet attachment

Different exchangeable probes optionally available as accessories
